

BREAKFAST

INSTRUCTIONS AND PRICES

The coffee machine is turned on by pressing any of the three buttons on the top. To turn it off, press the two external buttons at the same time. The machine works exclusively with the dedicated capsules in the drawer. Do not insert other capsules by forcing them to avoid damaging the machine, which will cost 85 euros. The capsules come from a traditional Apulian coffee roaster that packages them specifically for Agriturismo Le Specchie.

Do not put tap water in the coffee machine or in the kettle because it is not drinkable. The products in the room are consumable at the discretion of the guest and have a dedicated price, as per the price list below, which will be calculated at check-out. The products will be replenished in the room daily by the service staff between 5:30 pm and 6:00 pm. If for any reason you do not want the service, place the appropriate "Do not disturb" sign outside the door.

If you would like a full breakfast (milk, coffee, cappuccino, etc., fruit juice, croissants, bread, jams, omelettes, dairy products, ham, fruit) you can book it the day before by message or directly to the service managers present in the facility. The full breakfast is served at the table in the club house from 8:30 am to 10 am at a cost of 12 euros per person.
